

Aloe Vera Cleansers

Invention summary:

Cleanser was developed using Aloe vera fresh juice

Technology overview:

Cleansers are products that are intended to clean the skin by removing dirt, oil, makeup, and dead skin cells. They contain special ingredients that help to unclog pores and to prevent skin conditions such as acne. They may also contain moisturizers to prevent the skin from drying out. Cleansers leave the skin feeling clean and fresh. The safety of cleansers is established by selection of ingredients that are safe and suitable for this purpose.

Potential Application:

Can be applied to clean the skin by removing dirt

Advantages of the Aloe vera Cleanser:

- Having Aloe vera as an ingredient, gives a moistening effect in addition to cleansing
- All ingredients are available in the local market including fresh Aloe gel
- Can be made at domestic level
- It contains less chemical
- Machineries can be fabricated locally

Inventor /s:

Ms. P.I.P.K. Fernando
