

Herbal Shampoo

Invention summary:

Aloe vera, Godapara, Lime & Fenugreek shampoos formulated using fresh extracts of Aloe, Godapara, Lime and Fenugreek

Technology overview:

Shampoos are products that are intended to cleanse the hair. Rinses are intended to help condition the hair after shampooing and also manage the hair with the style. Natural extracts of Aloe vera, Godapara, Lime & Fenugreek are used in appropriate proportions to give maximum benefits to the user.

Potential Application:

Used to clean and rinse hair

Advantages of the Herbal Shampoo:

- All ingredients are available in the local market
- Can be prepared at the domestic levels
- It contains less chemical
- Machineries can be fabricated locally (large scale preparations)
- Promotes hair growth, reduces dandruff and gives smooth and shiny hair

Inventor /s:

Ms. P.I.P.K. Fernando
