

Knowledge Sharing Seminar & Workshop Series:

“Mining Information from e-Resources

Posted on 2011.09.01

Finding relevant information from electronic resources is a prime need of the hour for library professionals as well as for the researchers. Through this workshop we are trying to introduce best practices and methods to find the exact information you need and also familiarize with e-Resources available in the country.

This workshop is unique as the resource personnel are Information professionals with vast exposure to their respective subject areas. Therefore, we expect you to take the maximum benefit of this opportunity.
